
SQL SERVER ZA PROGRAMERE

ONLINE SEMINAR

MILOŠ RADIVOJEVIĆ, MICROSOFT DATA PLATFORM MVP

Sponzori

SentryOne®

AGENDA

09:00 UVODNA REČ

09.15 DATABASE I TABLE DESIGN ZA PROGRAMERE

10.00 KVIZ

10.15 SAVETI ZA PISANJE PERFORMANTNIH UPITA

11:20 EFIKASNO I ELEGANTNO REŠAVANJE UOBIČAJENIH TRANSACT-SQL ZADATAKA

12:15 PAUZA ZA RUČAK

13:00 PARAMETER SNIFFING I SQL INJECTION

14:00 TIPIČNE GREŠKE KOJE PRAVE PROGRAMERI

15:00 PITANJA

15:15 KRAJ

15:30 BUNDESLIGA

Code of Conduct aka ponašaj se!

- kamere i mikrofoni
- respekt prema svim učesnicima seminara
- sesije neće biti snimane

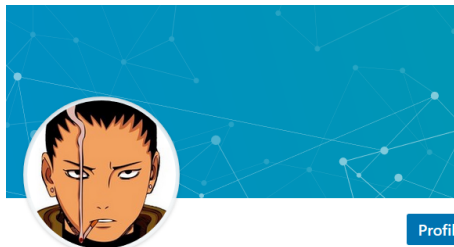

Pitanja

- Koristite chat za pitanja, eventualno uključite mikrofon
- Ja ću povremeno da prekidam sesiju i da odgovorim na pitanje-dva
- Na ostala pitanja odgovori će stići između sesija ili na početku sledeće
- Za pitanja na koja ne bude odgovoreno u toku vorkšopa, ostavite kontakt na koji će stići odgovor kasnije

Miloš Radivojević

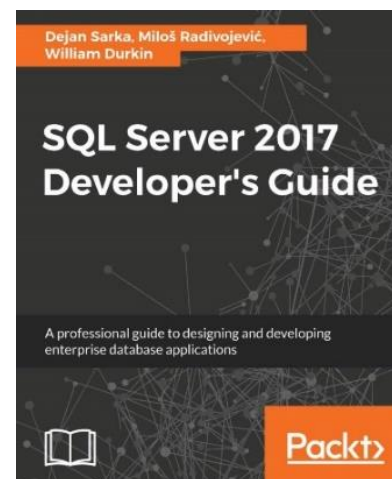

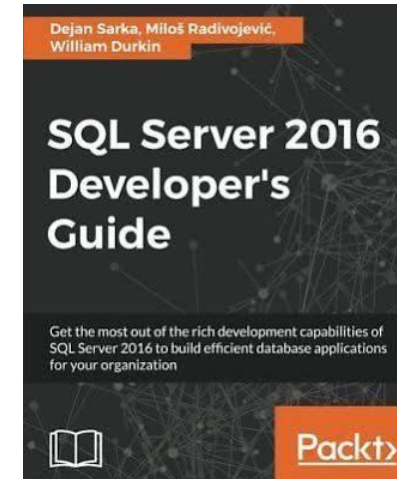

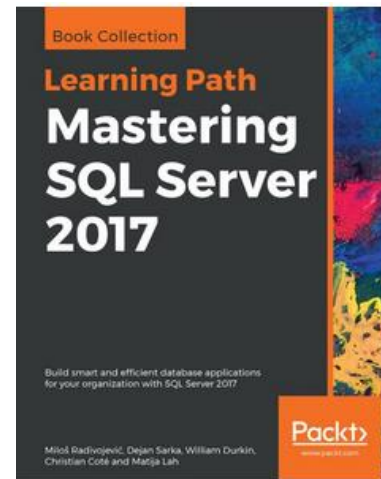

- Data Platform MVP
- Principal Database Consultant at bwin, Vienna, Austria
- Co-Founder: SQL Pass Austria
- Conference Speaker, Book Author

PLAN 
EXPLORER®

Get the best SQL Server query analysis
and optimization tool—**free!**

How SentryOne helps DBAs, data architects, and IT managers

Database Performance Monitoring

Accelerate delivery of business-critical data

- ✓ Monitor SQL Server, Azure SQL Database, and more
- ✓ Troubleshoot SQL queries and optimize query plans
- ✓ Optimize cloud databases running on Azure or AWS

DataOps

Simplify managing complex data environments

- ✓ Automatically document databases
- ✓ Analyze data lineage
- ✓ Manage metadata snapshots
- ✓ Create data dictionaries

Cloud Migration and Optimization

Move and manage cloud workloads with confidence

- ✓ Re-architect databases
- ✓ Establish performance baselines
- ✓ Validate data throughout migration
- ✓ Optimize cloud databases

Accelerate data delivery throughout the pipeline

SQL Sentry

Powerful, scalable SQL Server performance monitoring

- Extreme scalability
- Actionable, granular metrics
- Visibility across the data platform
- Monitoring for SQL Server running on AWS or Azure
- Highest rating on TrustRadius (9.3/10)

"I don't think the DocuSign team could have delivered on our performance promise for the past 5 years without SentryOne."

— **Shawn McMillian**
Director of Database Operations,
DocuSign

SentryOne Document

Automated database documentation and data lineage analysis

- Supports multiple data sources, including SQL Server and Salesforce
- Available as cloud solution or installed software
- Powerful visual data lineage and impact analysis
- Data dictionary creation
- Convenient web access

"MetaBank documentation is now always up to date, so it can be a line of defense for our processes."

— **Ron Van Zanten**
SVP of Data Systems, MetaBank
Payment Systems

Task Factory

Essential, high-performance SSIS components

- Eliminate tedious programming
- Connect to dozens of disparate data sources, including Salesforce
- Save time with ETL tasks
- Compatible with Azure Data Factory

"I don't have to sit there and babysit the process. I know I can trust Task Factory."

— **Matt Cushing**
Business Intelligence Developer,
Applegate
